PRODUCT	TYPE OF PRODUCT	
INFORMATION	TIPE OF PRODUCT	Porcelain Stone Tiling
OIIIIATION	COMPANY NAME	Crossville
	PRODUCT/COLLECTION NAME	Retro Active
	DESCRIPTION	Crossville, TN – Retro Active by Crossville® is a fashion-forward tile
	DESCRIPTION	collection of updated retro colors in today's most in-demand shapes and
		sizes. Sleek, clean and contemporary, Retro Active is Porcelain Stone®
		"tile that looks like tile." On its own, Retro Active is ideal for minimalist
		design schemes in commercial and residential spaces. Or, it can be
		dressed up with glass and metal Accent Innovations™ by Crossville®.
MATERIAL FEEDSTOCK	MATERIAL CONTENT	Porcelain stone, 20% recycled content
		,
	RECYCLED CONTENT %	Minimum 20% recycled content
	RAPIDLY RENEWABLE CONTENT	0%
	%	
	HARMFUL ADDITIVES	None
	HARMFUL EMISSIONS	None
	EMISSION STRENGTH OVER TIME	N/A
	TREATMENTS	No color dye treatment, colors come from inherent color of porcelain
MANUFACTURING	MANUFACTURING PROCESS	Our waste-water policies exceed government standards and we have
		earned several citations for effective waste-water practices. In fact, water
		used in our tile manufacturing is returned clean to its natural habitat.
		We maximize use of natural gas, a clean burning, efficient fuel, which
		helps alleviate negative impacts such as greenhouse gas emissions,
		smog, acid rain and water pollution. Our dust collection procedures not
		only allow us to limit air pollution, both inside and outside our plants, but
		allow us to reuse unfired raw scrap materials during manufacturing. While
		this reuse does not constitute recycling, it does minimize landfill deposits
	HADNELII ENIOCIONO	while conserving raw materials.
	HARMFUL EMISSIONS	None
	LOCATION OF MANUF. PLANT	Crossville, TN
	TESTS/CODES	ASTM c648 Breaking Strength, c482 Bond Strength, c373 Water
		Absorption, c650 Chemical Resistance, c1026 Frost Resistance, c1028
	ORD DADTY OFFITION	Coefficient of Friction, Scratch Hardness USGBC member, FloorScore
INSTALLATION	3 RD PARTY CERTIFICATION INSTALLATION PROCEDURE	Standard tile installation procedure using adhesive and grout.
INSTALLATION	INSTALLATION PROCEDURE INSTALLATION ADHESIVES	Use low VOC grout and adhesives.
	UNIT COST	Varies based on product from \$-\$\$\$
	LIFE CYCLE ANALYSIS	
	EXTRACTION	Contains recycled content, durable and long lasting
	END OF SERVICE LIFE	Crossvile Take Back Program for recycling
MISC. PROPERTIES	QUALITIES/PROPERTIES OF	Durable, long lasting
