MISC. PROPERTIES	QUALITIES/PROPERTIES OF PRODUCT	Mohawk Laminate Floors combine beautiful styling, textures and colors with Uniclic technology, the premier glueless locking system. The patented Uniclic Technology is a glueless locking system that means fast and easy installation. No glue is necessary. Boards slip easily into place — at an angle — or slide together with a snap. And with Uniclic Technology on all four sides of a panel, there is always secure locking action, even when space gets tight.
	MISC. COMMENTS	Mohawk Laminate Flooring offers a wide selection of rich colors and designs in several different grades, including laminates with pre-attached underlayments to help deaden sound and keep the floor warmer and "embossed-in-register" designs in which the surface texture exactly matches the image texture for highly realistic look and feel of real hardwood, tile and stones styles.
