

PRODUCT INFORMATION	TYPE OF PRODUCT	Paint
	COMPANY NAME	The Real Milk Paint Co.
	PRODUCT/COLLECTION NAME	Milk paint
	DESCRIPTION	Environmentally friendly paint
MATERIAL FEEDSTOCK	MATERIAL CONTENT	Organic materials, curdled milk, powdered purified casein, lime and iron oxide pigments. Black pigments may have been derived from coal, soot or charcoal. Red from the earth or crushed brick.
	RECYCLED CONTENT %	None
	RAPIDLY RENEWABLE CONTENT %	Varies Stuffing materials for shipping are shredded newspaper and junk mail brought in by employees, neighbors and former associates. They also collect used plastic shopping bags for wrapping each order because the shredded newspaper can leave dust on product.
	HARMFUL ADDITIVES	None
	HARMFUL EMISSIONS	No VOC
	EMISSION STRENGTH OVER TIME	n/a
	TREATMENTS	None
MANUFACTURING	MANUFACTURING PROCESS	Consist of Dry Milk Powder and natural Pigment added with water. Limestone helps it bond and become thicker.
	HARMFUL EMISSIONS	
	LOCATION OF MANUF. PLANT	Quakertown PA.
	TESTS/CODES	Not Specified
	3RD PARTY CERTIFICATION	Co-op America
INSTALLATION	INSTALLATION PROCEDURE	Natural bristle brush; can spray but make sure mixture is smooth in consistency.
	INSTALLATION ADHESIVES	n/a
	UNIT COST	Pint bag – 10.95, Quart bag – 16.50, Gallon bag – 46.00
	LIFE CYCLE ANALYSIS	All Natural Material
	END OF SERVICE LIFE	Biodegradable
MISC. PROPERTIES	QUALITIES/PROPERTIES OF PRODUCT	Can sit for a period of two weeks before congealing to a jelly blob, unlike other group's paints that only allow for one day then forcing clients to discard the remainder. Milk paint is considered green because it has no VOCs
	MISC. COMMENTS	Advantages to using Milk paint: absorbs carbon dioxide, improves indoor air quality, reduces greenhouse gases, sticks to raw wood, plaster, dry wall, stone, unsealed brick and concrete, no primer needed on raw wood and porous surfaces, sticks to latex with the addition of Ultra Bond, easy to use – water based formula, each bag contains everything needed, just add water, environmentally safe, non-toxic, does not contain radioactive Kaolin clays as a filler, virtually no odor during and after application, dries fast (30 minutes to 4 hours depending on temperature).
	CONTRIBUTION TO LEED POINTS	EQ c 4 Low Emitting Materials
COMPANY PROFILE	GREEN PHILOSOPHY	Our pigments are harvested in the traditional manner and are completely safe, eco-friendly, non-toxic, lead free and not radioactive.
