	UNIT COST	Varies based on product
	LIFE CYCLE ANALYSIS EXTRACTION	Durable and long lasting when routine cleaning maintained
	END OF SERVICE LIFE	Biodegradable depending on installation
MISC. PROPERTIES	QUALITIES/PROPERTIES OF PRODUCT	The fabric specialties of Brunschwig & Fils are exquisite and wide ranging. Designing and producing textiles for upholstery, wall covering, and interior design pieces, the company is known for their gracefully-printed linens, luscious chenille, suede, and velvets, and high-quality cotton and taffeta. Signature Brunschwig offerings include traditional prints such as stripes, floral, and plaids infused with contemporary, bolder styling such as animal skin prints and striking colors. The designs for the Brunschwig and Fils wall coverings are intricate and graceful, featuring beautiful prints and subtle, earthy tones. Brunschwig and Fils has also expanded into the design and production of upholstered furniture, such as armchairs, sofas, and ottomans, as well as pillows, curtains, and draperies. Brunschwig & Fils offers textile collections that span more than 50 years, while a few of the most coveted collections date back to as far as 200 years ago. Many of these textiles have been installed in royal residences such as the Chateau Versailles. Several Brunschwig and Fils collections of the past have been inspired by sources found within art museums, such as the prestigious Muse des Arts Decorates of Paris, the Museum of Art in New York, and The Henry Francis Du Pont Winterthur Museum in Delaware.
	MISC. COMMENTS	Brunschwig & Fils announced its plans for restructuring on January 2011 as Kravet, well-known distributor of luxury textile and furniture brands such as Lee Jofa & GP&J Baker, has already consented to buy the company through competitive bidding. Today, the company is owned

		solely by Kravet, as the Brunschwig & Fils name continues to serve the interior design industry as faithfully as it had for the past 110 years.
