

PRODUCT INFORMATION	TYPE OF PRODUCT	Furnishing	
	COMPANY NAME	Nevins	
	PRODUCT/COLLECTION NAME	Table, Architectural accessories	
	DESCRIPTION	Dining Tables, meeting and training tables, conferencing, architectural accessories	
MATERIAL FEEDSTOCK	MATERIAL CONTENT	Laminate, wood, veneer and wood, stone, stainless steel, and adhesive	
	RECYCLED CONTENT %s	<p>Edge</p> <ul style="list-style-type: none"> • Bamboo <p>Rapidly renewable with high sustainability</p> <ul style="list-style-type: none"> • Urethane <p>Comprised of approx. 65% refined vegetable oil, a rapidly renewable and natural material</p> <ul style="list-style-type: none"> • ABS <p>Recyclable plastic, unlike PVC material</p> <ul style="list-style-type: none"> • Wood <p>FSC certified, biodegradable, and a renewable source</p> <ul style="list-style-type: none"> • Aluminum <p>Recycled content is 30-100% and powder coat finish emits zero Volatile Organic Compounds</p> <p>Surface</p> <ul style="list-style-type: none"> • Linoleum® <p>Manufactured from 33% rapidly renewable resources including but not limited to linseed oil, limestone, and cork flour</p> <ul style="list-style-type: none"> • High Pressure Laminates <p>GREENGUARD Indoor Air Quality Certified under both the GREENGUARD Standard for Low Emitting Products & GREENGUARD for Children & Schools</p> <ul style="list-style-type: none"> • Veneer <p>FSC Certified Veneer</p> <p>Reconstituted Veneer - Engineered from sustainably harvested African Obeche and Italian plantation grown popular trees, preserving rare and exotic species</p> <ul style="list-style-type: none"> • 3D Laminate <p>EFX Laminates - non PVC</p> <p>Core</p> <ul style="list-style-type: none"> • NAUF <p>Certified by SCS for No-Added-Urea-Formaldehyde (NAUF) and 100% pre-consumer recycled wood fiber.</p> <p>Base</p> <ul style="list-style-type: none"> • Metal Base <p>Recycled content is 30-100%, and power coat finish emits zero Volatile Organic Compounds</p>	
	RAPIDLY RENEWABLE CONTENT %	Check the above information.	
	HARMFUL ADDITIVES	None	
	HARMFUL EMISSIONS	None	
	EMISSION STRENGTH OVER TIME	None	
	TREATMENTS	None	
	MANUFACTURING	MANUFACTURING PROCESS	Not expressed
		HARMFUL EMISSIONS	None
		LOCATION OF MANUF. PLANT	Cat Spring, Texas
TESTS/CODES		Not expressed	
3RD PARTY CERTIFICATION		<p>Linoleum:</p> <p>Sustainable Materials Rating Technology (SMART) Certified Collaborative for High Performance Schools (CHPS) section 01350 compliant</p> <p>Laminate:</p> <p>Greenguard Indoor Air Quality Certified under both Greenguard Standard for Low Emitting Products & Greenguard for Children and Schools.</p> <p>Wood:</p> <p>Wood is 100% Forest Stewardship Council (FSC) certified.</p> <p>MDF:</p>	

		<p>Scientific Certification System (SCS) certified</p> <ul style="list-style-type: none"> • Meets California Air Resource Board (CARB) Regulation 93120.2, Phase 1 emissions limits • Collaborative for High Performance Schools (CHPS) Section 01350 compliant
<u>INSTALLATION</u>	INSTALLATION PROCEDURE	N/A
	INSTALLATION ADHESIVES	<p>Water based adhesive</p> <ul style="list-style-type: none"> • Urea-formaldehyde free • Emits low Volatile Organic Compounds (VOC)
	UNIT COST	Varies from \$100 to \$3000
	LIFE CYCLE ANALYSIS EXTRACTION	Check the above information
	END OF SERVICE LIFE	Check the above information
<u>MISC. PROPERTIES</u>	QUALITIES/PROPERTIES OF PRODUCT	They have long durability
	MISC. COMMENTS	<ul style="list-style-type: none"> • Tables are packaged using returnable and recyclable materials which can reduce disposal into landfills • Cardboard used to package bases include, on average, 30% recycled materials
	CONTRIBUTION TO LEED POINTS	<p>MR Credit 2.1 MR Credit 2.2 MR Credit 4.1 MR Credit 4.2 MR Credit 5.1 MR Credit 6 MR Credit 7 IQ Credit 4.4 IQ Credit 4.5</p>
<u>COMPANY PROFILE</u>	GREEN PHILOSOPHY	<p>At Nevins, we believe that a balance must be reached between mankind and the environment. This is why we are dedicated to continued excellence, leadership and stewardship in preserving and protecting the environment. We are committed to a "Good Neighbor policy", in which we strive to minimize adverse effects of our business on the health and safety of the residents in our community, our customers, and our employees. Nevins' commitment is shown in dedication to waste reduction, recycling efforts and the use of eco-friendly materials.</p> <p>Reduced Waste Crucial to our environmental policy is our firm dedication to conservation. Nevins employs a Just-In-Time manufacturing philosophy, which eliminates waste caused by overproduction. In addition to reductions in inventory waste, this process allows us to only purchase raw materials as needed, thereby reducing our consumption.</p> <p>When performing White Glove delivery service, our installers cut down on waste by using sturdy shipping blankets instead of disposable cardboard boxes. These heavy-duty shipping blankets offer the same protection to furniture in transit as cardboard boxes. While cardboard boxes are routinely discarded after delivery, shipping blankets can be used for many installations over many years.</p> <p>Recycling Efforts Nevins' long-term recycling policy is clear: we pledge to give back more than we take. We know we must do our part by recycling our waste and scrap materials and by using recycled products in our everyday operations. This is why over 85 percent of our waste stream is either recycled or reused. Also, our cardboard packaging materials are made up of 80 percent recycled materials.</p> <p>In addition to reusing materials such as cardboard packaging boxes, Nevins is also highly selective when choosing environmentally conscious material suppliers. We purchase our materials from companies with progressive environmental policies, including waste reduction, reforestation, recycling, forest and animal protection, and human safety.</p> <p>Eco-friendly Materials Along with waste reduction and recycling efforts, we believe that the utilization of environmentally-friendly materials is also important. All of our paints and finishes are non-toxic and are composed of zero to low Volatile Organic Compounds (VOC). We believe that we are doing our part in promoting a more environmentally conscious industry by eliminating these VOCs and other materials containing hazardous chemical byproducts.</p>
