## IAR Library: 12.52.00 MA2 2013 v.7 <u>Upholstery</u> <u>12.52.00</u> <u>2013</u>

PRODUCT	TYPE OF PRODUCT	Upholstery
INFORMATION		
	COMPANY NAME	Maharam
	PRODUCT/COLLECTION NAME	Maharam Upholstery Book 7
	DESCRIPTION	Fabric for seating
MATERIAL FEEDSTOCK	MATERIAL CONTENT	Rayon Polyester Wool Nylon Polyurethane Solution-Dyed Nylon Cotton
	RECYCLED CONTENT %	Tally 465989 (74% Post-Cons. Polyester) Twice 465909 (13% Post-Ind., 1% Post-Cons. Polyester) Vary 465933 (100% Post-Cons. Polyester) Whirl 463800 (45% Post-Ind. Polyester)
	RAPIDLY RENEWABLE CONTENT %	Stripes (92% Wool) Tangram (32% Cotton) Treat (24% Cotton) Twice (15% Cotton) Venn (29% Cotton) Voyage (100% Wool)
	HARMFUL ADDITIVES	None
	HARMFUL EMISSIONS	Greenguard certification verifies that chemical and particle emissions fall within acceptable indoor air quality pollutant thresholds for adults. Products are tested for emissions of formaldehyde, volatile organic compounds (VOCs), respirable particles, ozone, and other pollutants using environmental chamber protocols designed to simulate typical indoor environments.
	EMISSION STRENGTH OVER TIME	Most are low VOC
	TREATMENTS	PFOA-Free Stain Resistant Finish
		Crypton includes an optimized antimicrobial utilizing silver ion technology. Silver ions naturally disrupt microbe cell metabolism; inhibit microbe respiration; and inhibit cell reproduction.
MANUFACTURING	MANUFACTURING PROCESS	Maharam has eliminated all halogenated/brominated flame retardant chemicals (PBDE's) by replacing them with phosphorus-based technology.
	HARMFUL EMISSIONS	Maharam is committed to minimizing the environmental impacts of its business practices.

	LOCATION OF MANUF. PLANT	251 Park Avenue South
		New York, NY 10010
	TESTS/CODES	Seating: California Bulletin #117; NFPA 260
	3 <sup>RD</sup> PARTY CERTIFICATION	Green Guard
		Certification: T10So99122-4
INSTALLATION	INSTALLATION PROCEDURE	Varies with application
	INSTALLATION ADHESIVES	None
	UNIT COST	Per Yard
		The Story of My Life: \$105
		Stripes: \$115
		Sudden: \$46
		Tack: \$45
		Tally: \$47
		Tangram: \$79
		Trait: \$41
		Tread: \$49 Treat: \$49
		Tremor: \$46.50
		Twice: \$35
		Twice: \$35
		Urban: \$45
		Vary: \$36
		Venn: \$46
		Voyage: \$88
		Wafer: \$35
		Weimar: \$69
		Whirl: \$35
	LIFE CYCLE ANALYSIS	Life-cycle analysis is a detailed process that evaluates the
	EXTRACTION	environmental impact of a textile at each stage of its life cycle.
		The EU Flower label, independently verified and endorsed by the
		European Commission, is awarded to products that have
		undergone a rigorous life-cycle analysis and meet specific
		ecological criteria.
		Maharam daga not make alaims that could microproport the

AFTER INSTALLATION	Vacuum regularly using the proper attachment to avoid pilling. Treat stains promptly. The longer a stain remains on the textile, the more difficult it will be to remove. A professional furniture cleaning service is recommended. Always pre-test any cleaning method in an inconspicuous area. Several light applications of a cleaning agent are less harmful than a single concentrated application. Repeat stain treatment several times if necessary. Never use heat to clean textiles. Heat can set stains. Do not use agents containing bleach. These agents my cause discoloration over time. Do not over saturate the textile or let water pool in seams.
