	RAPIDLY RENEWABLE CONTENT %	100% recyclable Steel components are 100% recyclable Aluminum components 100% recyclable 15% Post-consumer 6% Pre-consumer
	HARMFUL ADDITIVES	Powder-coating paint finish
	HARMFUL EMISSIONS	Low VOC
	EMISSION STRENGTH OVER TIME	Low
	TREATMENTS	Powder-coating paint
MANUFACTURING	MANUFACTURING PROCESS	Uses green energy, Manufacture is on an ISO certified site, a LEED pioneer building Meets or exceeds OSHA standers for workers health and safety.
	HARMFUL EMISSIONS	None
	LOCATION OF MANUF. PLANT	Zeeland, Mlchigan
	TESTS/CODES	
	3RD PARTY CERTIFICATION	GreenGuard Certified, C2C Silver
INSTALLATION	INSTALLATION PROCEDURE	None
	INSTALLATION ADHESIVES	None
	UNIT COST	
	LIFE CYCLE ANALYSIS	Research shows that an increasing number of people are doing more work in places other than their individual offices or workstations. Now people often work in spaces that can be used by a variety of people throughout the day. As a result, increasing demands for comfort, space efficiency, and ergonomic support are being placed on the secondary seating used in places like conference, project, training, and multipurpose rooms.
	END OF SERVICE LIFE	Closed-loop system, 100% recyclable, chair is made with less materials so it doesn't have as much product to be processed when recycled.
MISC. PROPERTIES	QUALITIES/PROPERTIES OF PRODUCT	Chair provides a variety of solutions--meeting spots, multipurpose rooms, workstation guest seating, drop-in and hoteling workstations, conference rooms, team areas, break-out spaces, and training areas.
	MISC. COMMENTS	Its design requires minimal use of materials and components, which also minimizes production cost.
	CONTRIBUTION TO LEED POINTS	Contributes to LEED credit through, returnable/reusable packaging, and durability, pre-consumer and post-consumer recycled content.
COMPANY PROFILE	GREEN PHILOSOPHY	Want to make the world a better place, with commitment to the community health and well-being, community service, inclusiveness and diversity, environmental advocacy.
