<b>COMPANY PROFILE</b>	<b>GREEN PHILOSOPHY</b>	Committed to Sustainability  We have a long history of minding the earth. It took root in 1953, when our founder, D.J. De Pree, said, "We will be a good steward of the environment." Since then, we've innovated new ways of preserving and living with the natural environment. We've also helped found associations that help other companies do the same. These days, we remain committed to getting rid of the negatives--waste and contamination. But we don't think that's enough. As our CEO, Brian Walker, says, "The attitude we've adopted is to go beyond eliminating the negative to creating a positive. We're constantly pushing ourselves to go beyond what is required."
