<b>COMPANY PROFILE</b>	<b>GREEN PHILOSOPHY</b>	In the 21st century, making the right decisions for the environment is the new integrity in business. We believe that even one company can make a difference. Leading by example we hope others will think critically about the materials we design and use. Carnegie remains the only textile/wallcovering company in this industry to have a PVC (vinyl) free policy. It's been that way since 1990. We've done our research and it just makes good sense.
