

<b><u>PRODUCT INFORMATION</u></b>	<b>TYPE OF PRODUCT</b>	Skylight section units
	<b>COMPANY NAME</b>	Kalwall
	<b>PRODUCT/COLLECTION NAME</b>	High Performance translucent building systems
	<b>DESCRIPTION</b>	A section of kalwall glass skylight and glass panel innovations detailing the framed section of a piece of glass.
<b><u>MATERIAL FEEDSTOCK</u></b>	<b>MATERIAL CONTENT</b>	Made up of Fiberglass face sheets with an aluminum frame
	<b>RECYCLED CONTENT %</b>	Most Kalwall systems contain 10-20% post and pre consumer recycled content.
	<b>RAPIDLY RENEWABLE CONTENT %</b>	Depending on the site it can be anywhere from 1-13%
	<b>HARMFUL ADDITIVES</b>	No Harmful chemicals could be detected however it is recommended that precautions be taken to control the site.
	<b>HARMFUL EMISSIONS</b>	Kalwall earned points towards low emission sites, therefore emissions are better controlled.
	<b>EMISSION STRENGTH OVER TIME TREATMENTS</b>	No emission strength over time A corrosion resistant finish is applied onto aluminum components. The spray is made up of fluoropolymer resins.
<b><u>MANUFACTURING</u></b>	<b>MANUFACTURING PROCESS</b>	Kalwall manufactures fiberglass sheets that are sandwiched in between an aluminum frame.
	<b>HARMFUL EMISSIONS</b>	The manufacturing process emits little to no harmful chemicals.
	<b>LOCATION OF MANUF. PLANT</b>	Manchester, NH
	<b>TESTS/CODES</b>	The material has met most requirements but has not been fully certified.
	<b>3<sup>RD</sup> PARTY CERTIFICATION</b>	EnergyStar, Greenspot, FM
<b><u>INSTALLATION</u></b>	<b>INSTALLATION PROCEDURE</b>	Panels are installed with the efficient clamp aluminum system, and the fiberglass panel is placed between a thermal barrier.
	<b>INSTALLATION ADHESIVES</b>	Fluoropolymer resins contained within the corrosion resistant finish and aluminum and fiberglass alloys can be found within the installed material.
	<b>UNIT COST</b>	Depending on the project units could go from 75\$ and above
	<b>LIFE CYCLE ANALYSIS EXTRACTION</b>	Kalwall products are built to last for many years.
	<b>END OF SERVICE LIFE</b>	Approximately 20% of the Kalwall materials are post recyclable.
<b><u>MISC. PROPERTIES</u></b>	<b>QUALITIES/PROPERTIES OF PRODUCT</b>	Always comes standard with an aluminum frame and fiberglass sheet body.
	<b>MISC. COMMENTS</b>	Sample requests are processed very well.
	<b>CONTRIBUTION TO LEED POINTS</b>	The Product does contribute to LEED but is not certified.
<b><u>COMPANY PROFILE</u></b>	<b>GREEN PHILOSOPHY</b>	The company is committed to maintaining sustainable practices with their materials.
	<b>CONTACT</b>	Christine S. Broadway 603-627-3861 Ap_caparc@mindspring.com
<b><u>MAINTENANCE</u></b>	<b>AFTER INSTALLATION</b>	What are the recommended cleaning and maintenance schedule and procedure? Can the procedure be done without the use of toxins?
