USG Ceiling Systems
09.50.00
2014

PRODUCT INFORMATION	TYPE OF PRODUCT	Finishes - Ceiling Systems
	COMPANY NAME	USG
	PRODUCT/COLLECTION NAME	Compasso Trim and C ² Paired Channels
	DESCRIPTION	Ceiling Systems Catalogue: Compasso
MATERIAL FEEDSTOCK	MATERIAL CONTENT	Varies - Catalogue includes: Metal, Face-Routed, Cast Gypsum, Luminous, Open-cell, Acoustical, and Suspension systems. http://www.usgdesignstudio.com/sustainability-table.asp
	RECYCLED CONTENT %	Varies: http://www.usgdesignstudio.com/sustainability-table.asp
	RAPIDLY RENEWABLE CONTENT %	Varies: http://www.usgdesignstudio.com/sustainability-table.asp Acoustical Panels: 0% to 10.926% Specialty Suspended: 0% Gypsum: 0% to 4.7%
	HARMFUL ADDITIVES	
	HARMFUL EMISSIONS	
	EMISSION STRENGTH OVER TIME	
	TREATMENTS	
MANUFACTURING	MANUFACTURING PROCESS	
	HARMFUL EMISSIONS	N/A
	LOCATION OF MANUF. PLANT	Varies: Cloquet, MN, Greenville, MS, or Walworth, WI
	TESTS/CODES	Has the material met the testing requirements for certifications?
	3RD PARTY CERTIFICATION	We hold leading positions and have representatives on critical standards committees and organizations including: Founding members of the US Green Building Council (USGBC) and the Responsible Solutions to Mold Coalition (RSMC) Invitation only member of the Alliance for Sustainable Built Environment Active participation in ASTM's E60 Committee on Sustainability American National Standards Institute (ANSI) and the International Code Council (ICC) to develop green standards for homes
INSTALLATION	INSTALLATION PROCEDURE	Describe recommended installation procedures. Are any special techniques or tools or particular temperature, moisture or other ambient or substrate conditions required? What effect does the choice of installation techniques have on its ability to be recycled?
	INSTALLATION ADHESIVES	What is the VOC content of adhesives?
	UNIT COST	A
	LIFE CYCLE ANALYSIS EXTRACTION	What are the financial costs for the material? Is the product energy efficient?
	END OF SERVICE LIFE	USG has partnered with companies in most states in a product-recycling program. http://www.usgdesignstudio.com/resources/documents/recycling/USG-Ceilings-Recycling-Program-Consolidators.pdf
MISC. PROPERTIES	QUALITIES/PROPERTIES OF PRODUCT	<ul style="list-style-type: none"> - Creates free-form ceiling islands or fascias to define space and provide visual impact - Available in variable trim heights - Costs a fraction of conventional drywall soffit construction - Made to order—arrives onsite pre-engineered - Strong, durable and long-lasting steel or aluminum construction - Guaranteed to fit all USG ceiling systems
	MISC. COMMENTS	USG provides access to a LEED Report Tool, online at WWW.USGdesignstudio.com . Custom reports for USG products may be produced to assist with LEED credit qualification. USG also provides a "Submittal Builder" application and "Comparison Guide" application at the same, above web address.
	CONTRIBUTION TO LEED POINTS	LEED - Innovation in Design, LEED - Materials & Resources Credit:

<u>COMPANY PROFILE</u>	GREEN PHILOSOPHY	Regional Materials "USG is committed to building sustainable spaces and EPDs are the next step in providing greater transparency of our environmental stewardship." Retrieved from http://www.usg.com/content/usgcom/en/about-usg/sustainability-atusg/environmental-product-declaration.html
<u>MAINTENANCE</u>	CONTACT	A
	AFTER INSTALLATION	What are the recommended cleaning and maintenance schedule and procedure? Can the procedure be done without the use of toxins?
